Hello Jeff,

Thank you for your email. Let us please plan on meeting on Wednesday, October 25, 2017. We will be driving up from Phoenix and should be in your area in the 2:00 – 2:30 pm timeframe. We are interested in meeting somewhere at FMCV and please provide us with a recommendation where we can meet. For your information, EPA plans to meet separately with members of the Hopi Tribe's Water and Energy Team on Thursday, October 26, 2017.

For our meeting with FMCV, we would like to discuss the ongoing arsenic MCL exceedances at FMCV and options for getting into compliance, including short and long term measures. You noted in your latest email that FMCV would like to go over key concerns and priorities, primary points of contact, and EPA R9 enforcement expectations for the FMCV PWS. Please let us know if there are any additional items you would like to put on the agenda.

EPA respectfully requests that FMCV's traditional leader, in addition to Mr. Ivan Sydney and yourself, attend the meeting. From our end, Thanne Berg, Acting Assistant Director, Enforcement Division, Janet Magnuson, of our Office of Regional Counsel, and myself plan to meet with you.

Please feel free to contact me with any questions. My work cell phone number is [415-471-7087](tel:415-471-7087).

Thank you.

Subject: Fwd: FMCV wants in person Meet

Hello Hillary,

I've forwarded you the request of an "in-person" meeting w/ EPA Region 9, and EPA Enforcement Region 9 to discuss the HAMP. This request comes from the Village Administrator, Mr. Ivan L. Sidney Sr. who insist that a person to person discussion is necessary w/ regard to the PWS#09-400106.

FMCV understands the time sensitivity of the HAMP w/ regards to funding availability, therefore it would be highly suggested that FMCV receives an immediate response to this request. Thank You

Emmanuelle,

I've informed Mr. Sidney, Village Administrator, of my attempts to schedule a phone conference meeting w/ FMCV, and yourself. He has directed me to arrange an "in-person" meeting w/ EPA Region 9, and EPA Enforcement R9 to discuss in person HAMP.

I know that the HAMP is time sensitive, therefore FMCV would appreciate an immediate response to FMCV's request. Thanks
